

⚠ **WARNING** ⚠

READ AND UNDERSTAND THE INFORMATION IN THIS SAFETY GUIDE BEFORE USING ANY *DRUMMOND SHOOTING TARGETS*.

FIREARMS SAFETY RULES

Always follow these steps (the ACTS & PROVE method) to ensure safe firearms usage.

- **A**ssume every firearm is loaded.
- **C**ontrol the muzzle direction at all times.
- **T**rigger finger must be kept off the trigger and out of the trigger guard.
- **S**ee that the firearm is unloaded – **PROVE** it's safe.

- **P**oint the firearm in the safest available direction.
- **R**emove all cartridges.
- **O**bserve the chamber.
- **V**erify the feeding path.
- **E**xamine the bore.

STEEL TARGET SAFETY RULES

1. Observe and follow **ALL** provincial, state and municipal laws when using this product.
2. Always obey the Firearms Safety Rules listed above.
3. Always wear hearing protection and wrap-around shatter resistant (OSHA rated) eye protection.
4. Shooters should be experienced, competent, knowledgeable people who are in a position to evaluate and control the risks involved.
5. The use of steel targets by beginners and less knowledgeable shooters should be under the direct supervision of experienced shooters, instructors, or range officers.
6. Shooters and observers must wear long pants (no shorts), long sleeve shirts, a cap or hat with a brim, closed toed shoes, hearing protection and wrap-around shatter resistant (OSHA rated) eye protection.
7. Inspect all targets before using for damage (damaged steel can be classified as cratered, pitted, cracked, bent, or any displaying any notable defects etc.), functionality, etc.
8. Never shoot steel that is cratered, pitted, or damaged in any way.
9. The angle of engagement should not exceed 20 degrees. See figure **1A**.
10. When using multiple targets they should be placed with a 3 foot lateral and deep offset from the adjacent target to avoid cross splatter. See figure **2A**. note* *generally speaking, bullet splatter will deflect at a 20 degree angle.*
11. Always cover hard ground surfaces beneath the target with at least ½" plywood, or at least 3 inches (7.62 centimeters) of sand or boxed pea gravel.
12. Never shoot steel targets with steel core or solid copper rounds.
13. Never use more powerful ammunition than a target is rated.
14. Never use any shotgun ammunition on steel targets.
15. Never use ammunition that travels below 750 feet per second.
16. Never shoot BB's, steel shot, or air gun pellets at steel targets.
17. Instructors and observers must stand behind the shooter and observe all safety rules.

PRODUCT-SPECIFIC SHOOTING INSTRUCTIONS

3/16" AR 450 GONG

Minimum shooting distance is 50 yards for your safety. Rated for .22 rimfire, 9mm and .40 caliber only. Do not shoot with any round travelling under 700 FPS. No rounds over 1,500 FPS. Do not shoot with steel core or solid copper bullets.

3/8" AR 500 GONG

Minimum shooting distance is 100 yards. Do not shoot with any round travelling under 700 FPS. The minimum distance recommended for rounds exceeding 3000 FPS is 200 yards. Do not shoot with steel core or solid copper bullets.

OTHER SAFETY ISSUES

In general bullets will not "bounce" back or ricochet off steel targets. This DOES NOT MEAN mean they never will, just that most of the bullets will fragment and deflect at 20 degrees. Since splatter can only be minimized and never totally eliminated, proper safety precautions must be used at all times. This target must be used within the recommendations provided on this instruction sheet. Use of steel targets can be safe if done properly. Be sure to:

- Buy your targets from a reputable manufacturer.
- Place targets correctly.
- Take proper safety precautions.
- Follow all safety rules listed on this page.

ADDITIONAL INFORMATION

The warranty period is 90 days from purchase for wear items and 1 (one) year on welds. We **WILL NOT** cover damages due to misuse and/or abuse. Our targets are built with your safety in mind. However, as the user, it is your responsibility to use this product in accordance to the safety instructions provided on this sheet. Ultimately, you, the user, will determine safe and effective use of this product. *Drummond Shooting* specifically disclaims liability for incidental or consequential damages and assumes no responsibility or liability for any loss, damage or death suffered by any person as a result of the use or misuse of any of our products. *Drummond Shooting* assumes or undertakes no liability for any loss or damage suffered as a result of the use, misuse or reliance on the information and content on this safety sheet.
